

FILTRE HABITACLE BIOFONCTIONNEL

**UNE NOUVELLE GAMME DE FILTRE D'HABITACLE EST
DISPONIBLE CHEZ MGA:**

LES FILTRES BIOFONCTIONNELS

**81 Filtres tous disponibles à la vente,
identifiables par le même préfixe « FAH55.. »**

- Un traitement « biofonctionnel » est appliqué sur une gamme de filtre à charbon actif afin de protéger contre la prolifération des bactéries et moisissures, et réduire la présence d'allergènes dans le véhicule.
 - Selon notre approvisionnement, le traitement peut recouvrir le filtre d'une couche verte, ou bien être incolore et donc garder la couleur grise du charbon actif, mais l'efficacité reste la même pour toute notre gamme.
 - L'efficacité de nos filtres d'habitacle biofonctionnel est confirmée par des tests conformément aux normes internationales ISO 846 et JIS L1902.
-
